PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Generative AI, Agentic AI, RAG, and LLM application development. Experienced with LangChain, LangGraph, Gemini, multi-agent systems, tool calling, structured outputs, and LangSmith. Strong MERN stack foundation with Python, JavaScript, REST APIs, JWT authentication, and middleware. Proficient in Data Structures and Algorithms (DSA) and building scalable AI-powered applications.

EDUCATION

Sahyadri College of Engineering and Management

Mangalore, India

Bachelor of Engineering in Computer Science and Engineering

Expected Graduation: 2028

CGPA: 9.73 / 10.0

TECHNICAL SKILLS

Generative AI & Agentic AI: LangChain, LangGraph, LlamaIndex, CrewAI, Google Agent Development Kit (ADK), Ollama, Gemini API, Groq API, Guardrails, RAG, Hugging Face, Prompt Engineering

LLMOps, Cloud & Developer Tools: LangSmith, LLM Evaluation, LLM Observability, Docker, Kubernetes, Git, GitHub, GitHub Actions, n8n, Make, Claude Code, VS Code, Postman, Vercel, AWS

Programming Languages: Python, JavaScript, C++, C

Web Development & MERN Stack: React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs

Databases & Vector Databases: MongoDB, TiDB, ChromaDB, Qdrant

PROJECTS

Clarity Script (AI Code Explainer)

React.js, Express.js, LLM APIs, Node Security

- Engineered a full-stack, AI-powered code explanation platform, delivering structured and responsive generative outputs, by integrating Large Language Model (LLM) APIs with an Express.js backend and parsing responses using React Markdown and Remark-GFM.
- Secured backend APIs against automated threats and ensured high availability by implementing Helmet.js and Express Rate Limiting.

Local AI Document Assistant

Ollama, LangChain, RAG pipeline, chromaDB, Prompt Engineering, Embeddings

- Engineered a privacy-first personal document assistant, delivering intelligent Q&A capabilities over local files, by implementing Retrieval-Augmented Generation (RAG) using LangChain.
- Achieved zero cloud API dependency and ensured completely secure data handling, mitigating data leakage risks, by orchestrating offline LLM inference pipelines via Ollama.

Autonomous Agentic Research Studio

Python, FastAPI, Next.js, LangChain, Gemini, Cerebras AI, LangSmith

- Engineered a full-stack multi-agent research platform, delivering high-speed, dynamically sourced intelligence reports, by orchestrating Search and Reader workflows via LCEL, Gemini API, and Cerebras AI.
- Enforced rigorous output quality and production-grade monitoring by designing a self-reflecting Critic/Writer pipeline with LLM tool calling, structured output parsers, and LangSmith observability.

ACHIEVEMENTS & COMPETITIONS

LeetCode Achievements & Problem Solving

2026

- Solved 190+ algorithmic problems on LeetCode, demonstrating advanced Data Structures and Algorithms (DSA) proficiency across arrays, dynamic programming, stacks, and trees; earned an official 200-Day consistency badge.

Unstop Prediction League

2026

- Participated in the competitive Unstop Prediction League and earned official recognition by winning an exclusive merchandise T-shirt for exceptional analytical decision-making.

Tata Crucible Campus Quiz

2025

- Competed in the national-level business and analytical reasoning preliminary rounds, demonstrating critical thinking and problem-solving.

Workshops & Conferences

MAS with Google ADK Workshop

GDG Cloud Mangalore

- Built production-ready Agentic AI systems utilizing Google Agent Development Kit (ADK), Gemini, Pydantic, and multi-agent architectures.

CERTIFICATIONS

- Agentic AI with CrewAI** – Udemy, Jun 2025 (Multi-agent workflows, autonomous LLM systems)
- Claude Code and Cowork** – Udemy, Jun 2025 (AI-assisted software development, LLM tooling)
- React Bootcamp** – LetsUpgrade, Feb 2026 (React.js, component architecture, state management)
- Dynamic Programming** – Scaler School of Technology, Feb 2026 (Advanced algorithms, problem-solving, optimization)
- CodinGame C++ Programming** – CodinGame, Jan 2026 (Object-Oriented Programming, Standard Template Library)
